

# Dinghy

The dinghy is a Caribe 12' long RIB hard bottom fibreglass double skin hull fitted with a Yamaha 15 HP 2 stroke outboard and a 20 litre fuel tank. The anchor locker has a Fortress aluminium anchor with chain and rope and emergency water along with a sealed plastic container with a multitool, torch, outdated rocket flares , V-sheet.

We normally carry the VHF floating radio with us and use this if we have an emergency.

The dinghy has oars and is fitted with drop down wheels for easy haul out on beaches.
